History: The Friends of Charnock Recreation Grounds was formed by 5 mums who were exasperated by the lack of investment in their local playground. They felt that their children deserved better than the old, out dated and vandalised climbing frames, swings, slides, empty spaces where equipment used to be and hard play surfaces. Inspired by other playgrounds with much newer, attractive and appealing equipment and safety play surfaces, they decided to do something about it. Following initial meetings in summer 2006 the group formed with the aim of developing, improving and supporting the re-development of Charnock Recreation Grounds. The group needs your help and support to make change happen and make the recreation ground one your kids want to play in.
